CAREER OBJECTIVE

Java Full Stack Product Developer with 3 years of experience building efficient and scalable web applications. Adept at working across the entire tech stack, with expertise in **Java, Spring Boot, SQL, Angular, TypeScript, JavaScript, HTML, and CSS**. Experienced in developing dynamic user interfaces, enhancing performance, and integrating robust backend solutions. Committed to delivering innovative and impactful digital products while collaborating with forward-thinking teams.

SKILLS

Frontend Angular | TypeScript | HTML | CSS | JavaScript | RxJS | Angular Material | Apache ECharts | Karma | jasmine
Backend Java | Spring Boot | RESTful APIs | Spring Data JPA | Hibernate | Microservices | Maven | JUnit | Mockito
Dev Tools Git | Docker | Swagger | Postman | Webpack | NPM | VS Code | Eclipse | JIRA
Database SQL
Other Lazy Loading | Cross-Browser Compatibility | Responsive Design
Soft Skills Problem Solving | Critical Thinking | Communication | Collaboration | Agile Practices

EXPERIENCE

CTGT Innovation Private Limited

Jan 2023 - Present

Software Developer

Pune, India

Siemens Digital Industries Software

- Built backend modules and coordinated with Angular teams for **smooth API integration**.
- Contributed to the **development and enhancement** of **in-house Angular component library**.
- Implemented **theming and design** standardization across apps, **increasing UI/UX consistency by 15%**.
- Resolved **security vulnerabilities in Docker images** for a project to ensure safe and stable deployments.

Career Atlas

- Designed and developed **RESTful APIs using Spring Boot**, improving application scalability and modularity.
- Implemented **custom exception handling**, and global error responses for improved maintainability.
- Streamlined database integration with **Spring Data JPA**, reducing boilerplate code.
- Implemented services and modified modules** to enhance functionality.
- Improved UI with **Apache ECharts and NG ZORRO**, boosting **experience by up to 20%**.
- Successfully **migrated project from Angular 12 to 17** for improved features.
- Optimized performance with **nested routes and Lazy Loading** feature implementation.
- Utilized Angular Material components** extensively to build responsive and user-friendly interfaces.
- Worked with **JavaScript frameworks like NgRx and RxJS** for state management and asynchronous operations.

Publicis Sapient

June 2022 - Dec 2022

Junior Associate Technology

Bengaluru, India

- Refactored and optimized backend Java services, leading to a **15% improvement in response time**.
- Revamped Dashboards for **improve visualization and user-friendly experience**.
- Developed **cross-browser compatible** code with a focus on **DOM management and responsive design**.
- Built RESTful APIs for reliable **microservice communication**.

PROJECTS

Opcenter Intra Plant Logistics

- Siemens product focused on automating and optimizing internal material movement within manufacturing plants.
- Enhances real-time visibility and coordination between warehouses, production lines, and assembly areas.
- Integrates with MES systems to improve efficiency, traceability, and reduce manual logistics efforts.
- Tools/ Technology:** Java, Spring Boot, SQL, Docker, HTML, CSS, JavaScript, TypeScript, Angular, Rxjs, Jenkins, CI/CD

Itanta Analytics

- Specialized in no-code data analytics and reporting solutions, particularly for the manufacturing industry.
- Platform designed to aggregate and visualize data from industrial automation systems.
- Empowering non-technical users to create their own dashboards and reports independently.
- Tools/ Technology:** Java, Spring Boot, Angular, TypeScript, HTML, CSS, NgRx, Rxjs

Career Atlas

- AI-powered ATS automating resume parsing and candidate tracking for efficient hiring.
- Comprehensive analytics and dashboard for real-time hiring insights.
- Efficient recruitment workflow, minimizing manual entry and enhancing process speed.
- **Tools/ Technology:** HTML, CSS, TypeScript, Java, Spring Boot, Angular, Apache ECharts, Data JPA

EDUCATION

C.V. Raman Global University <i>B.Tech Computer Science Engineering CGPA : 8.78</i>	Aug 2018 - May 2022 <i>Bhubaneswar, Odisha</i>
Nirmal Hriday Ashram, Midnapore <i>12th WBCHSE Percentage : 82.6</i>	July 2015 - Mar 2017 <i>Midnapore, WB</i>

CERTIFICATIONS

- Java Masterclass 2025, Udemy
- Diploma in IT Architecture, CDAC
- Angular (Intermediate), HackerRank
- Web Application for Everybody, Coursera
